

"IT'S HARD TO BELIEVE"

X SALES LIMITED, FORBIDDEN OR RATIONED!

AMERICAN BUSINESS MEN'S RESEARCH FOUNDATION • CHICAGO • No. 1005

With practically everything else being rationed, limited, or even banned, so far as sales are concerned, the average American wonders why the dispensers of the trio of non-essential luxuries,—whisky, beer and wines—continue to do a land office business through the 400,000 retail outlets throughout the country.

We Wonder Why

The liquor business is the one privileged business in our democracy. The list of rationed articles lengthens, but there is no hint that intoxicants are to be placed on it. We are told that our entire country faces a food famine, and yet the breweries must not be denied the grain so essential to their privileged business. It amounts to almost treason to buy anything that one does not need, but purchases of liquor must not be interfered with. Liquor is the only stuff in this country available to all without limit or restriction. Privileged? Well, it looks like it. We wonder why, and are really afraid to know the answer.
