My dear Sir:-

Your letter of April 13 with editorial from a Catholic publication has been received. I must say that this editorial is a fine piece of propaganda for the insidious campaign that certain people and groups are prosecuting in this country to bring about social-equality between the white race and the black race which, if you are intelligent, you will know leads to miscegenation, mongrelization, interbreeding and intermarriage which course will destroy both the white race and the black race and the civilization of white America.

There IS an answer to this question raised by this propaganda editorial and for several years I have been investigating, studying and writing a book that is a complete answer. This book will be published the latter part of this year. Its title is TAKE YOUR CHOICE - SEPARATION OR MONGRELIZATION. I hope you will have a chance to read it.

The race question in this country is the one question on which every citizen must "take his choice"—separation or mongrelization. For me I have answered that question - it is far better that the negro be given a chance to be repatriated or resettled voluntarily in his fatherland, West Afrida, than to let him remain here and destroy both my race and his race and the white man's civilization by the mongrelization process that politicians, religious fanatics and ignorant social leaders are advocating in this country.

Thanking you for writing me, I am

Yours truly,

U. S. S.
